EDUCATION

Bachelor of Science in Information Technology (BSIT)

University Of The Punjab, Lahore

2023 - 2027 | Sialkot, Pakistan

WORK EXPERIENCE

Frontend Developer (React.js)

Personal & Freelance Projects

Designed and developed the SIALGEAR e-commerce frontend using React.js. Implemented dynamic routing, responsive layouts, and modern UI components. Managed version control using Git and GitHub.

Sialkot, Pakistan

Accomplishments / Tasks

- **Developed SIALGEAR Frontend:** Built a fully responsive e-commerce interface using React.js.
- **Dynamic UI Components:** Implemented interactive navigation and routing using React Router.
- **Code Optimization:** Ensured clean, scalable, and reusable code using modern CSS and component-based architecture.
- **Version Control:** Managed the development lifecycle and documentation through Git and GitHub.
- **UI/UX Design:** Bridged the gap between design and code by applying graphic design principles to web layouts.
- **Live Project:** sialgear.vercel.app, haseeba-imtiaz.github.io/portfolio-website
